**Subject:** Advertising on City buses

Dear Councilman,

Please, please, please, vote AGAINST having advertising on the exterior of City buses. I and others are quite aware of the fiscal situation here that makes the advertising revenue an attractive solution. However, I am sure that you can think of other ways to raise revenue.

We need to stop this before it goes any further. I saw last week a car for a local radio and TV station COVERED (the whole thing) with advertising. These should be outlawed!!!!

We do not need this! Please vote NO to vehicular advertising! We do not need moving billboards!
